

Presidential Primary Canvass Report

April 19, 2016

On April 19, 2016, two separate and distinct elections occurred in Nassau County: the Presidential Primary and Special Election for New York State Senatorial District Nine. Each election utilized separate ballots and voting machines. In order to have enough voting machines for each election, the Nassau County Board of Elections decided to consolidate multiple election districts onto the same voting machine for the Presidential Primary. Since voters from multiple election districts were voting on one machine, the results of the Presidential Primary are broken down by polling place, instead of election district.
